

I am writing in regard to the interest being shown by a national association of financial institutions wanting the FCC to weaken Wisconsin's POPULAR Consumer Protection, No-Call List. As a citizen of WI, I have been very happy with the success of the No-Call list. I would hope that the FCC would rule on the side of the consumer and not on the side of the telemarketing firms. Ruling on the side of the telemarketing firms tells me you are putting the best interest of the consumer last, instead of first.

I am so pleased to have a quiet evening or weekend at home and to be able to funnel my time with my family instead of intercepting unwanted telemarketing calls.

I want the WI Do Not Call Law to stay as it is and to not be altered! Thank you.
